# **Behavioral Health Initiative Acronyms and Definitions**

## **Behavioral Health Task Force (BHTF)**

- County based policy meetings involving stakeholders that have a vested interest in behavioral health and their communities. Task forces are a place to gather, identify problems, and set goals and priorities for the communities to tackle problems both large and small. Task forces are effective in bringing all stakeholders together as they enable different professions to understand behavioral health impacts and challenges from different perspectives.

## **Certified Community Behavioral Health Clinics (CCBHC)**

- Outpatient behavioral health clinics that provide integrated mental health and substance use treatment, primary care assessment, and medication management as needed. CCBHCs serve the 'whole person' by offering person-centered and family-centered care. Populations that CCBHCs provide services to include:
  - Adults with serious mental illness (**SMI**)
  - Children with serious emotional disturbance (**SED**)
  - Individuals with severe substance use disorders (**SUD**)
  - Individuals with mild or moderate mental illness and substance abuse disorders
- Services provided:
  - Community-based mental health and substance use treatment services
  - Combined behavioral health and physical health care with no wrong door entry
  - Evidenced based practices
  - Improved access to high-quality care
  - Care coordination and case management to address all needs of the individual

## **Crisis Intervention Team (CIT)**

- The Crisis Intervention Team (CIT) model is a police-led, collaborative response for behavioral health crises that involves training patrol officers to recognize and de-escalate situations involving individuals experiencing a behavioral health crisis and to refer those individuals to appropriate services, as opposed to conducting an arrest, when possible. The goals of CIT programs are to increase the safety of police interactions with individuals experiencing a crisis, to improve access to behavioral health services for individuals in crisis, and to reduce reliance on the criminal justice system in addressing behavioral health-related challenges. These programs have most traditionally been used to address individuals experiencing mental health or substance use-related crises. Less research has examined the utility of these programs for improving police interactions with individuals with intellectual and/or developmental disabilities (**IDD**).

### **Forensic Assessment Service Triage Team (FASTT)**

- FASTT teams may include social services, mental health, and substance use treatment agencies who conduct community in-reach into county jails to provide inmates with screening, assessment, treatment, and other services during incarceration and upon re-entry into the community to reduce risk of rearrest.

### **Health and Human Services**

- The services offered are unique to each county. Counties with robust social service agencies have a wide variety of services for vulnerable populations while other social service agencies are limited to offering emergency rent assistance, housing vouchers and transportation assistance.

### **Mobile Crises Response Team (MCRT) (Youth)**

- The **MCRT** responds to youth and families in crises, by phone or in person, working to connect them to treatment and prevent hospitalizations. Mental health clinicians are available to assess, intervene, and stabilize crises, and connect the family to continuing care. MCRT provides a statewide hotline to receive referrals and provide screening. If additional intervention is necessary, a response team provides limited-time outreach to the youth and family to resolve the crisis. **MCRT** also offers short-term assistance and case management services.

### **Mobile Outreach Safety Team (MOST)**

- A team composed of a mental health clinician and/or case manager, and a law enforcement deputy; may also include an emergency services paramedic and/or social services case manager. The team responds to law enforcement calls and other community referrals that involve behavioral health crisis. Depending on the county, **MOST** teams may respond to psychiatric emergencies, provide community outreach, and/or provide maintenance check-ups on previous contacts. **MOST**'s purpose is to reduce the risk of arrest and hospitalization for individuals experiencing behavioral health issues, thereby increasing the safety of the public.

### **Multidisciplinary Team (MDT)**

- A regularly scheduled community provider meeting focused on development of service and crisis stabilization plans for individuals who are in chronic crisis or are overutilizing emergency services. Teams may consist of any combination of law enforcement, emergency medical services, housing, hospitals, social services, and behavioral health treatment providers. For certain populations, Adult Protective Services or the Department of Child and Family Services may be involved.

### **Northern Regional Behavioral Health Policy Board (NRBHPB)**

Website: <https://nvbh.org/>

- Diverse group of stakeholders from Carson, Churchill, Douglas, Lyon, Mineral and Storey Counties, developed by the Nevada Legislature in 2017 (AB366) to identify gaps, needs, and solutions for behavioral health issues in the region. Currently meeting monthly.

### **Rural Children’s Mental Health Consortium (RCMHC)**

- The functions of the Consortia are to assess the current and behavioral health services for youth in each jurisdiction and develop a plan that will identify gaps and areas in need of improvement. The RCMHC is comprised of committed professionals, agency personnel, community representatives, parents, foster parents, youth, community business representatives, representatives from the Department of Education and advocates.

### **State of Nevada-Division of Public and Behavioral Health Rural Clinics (DPBH)**

Website: <https://dpbh.nv.gov/>

- Public outpatient behavioral health services are provided by the Nevada Division of Public and Behavioral Health. Offices are located in most counties (with the exception of Eureka and Storey Counties).

### **Western Regional Specialty Courts (WRSC)**

Website: <https://www.reno.gov/government/municipal-court/specialty-courts-and-programs>

- Specialty Courts are problem-solving courts that help break the cycle of drug and/or alcohol addiction that can influence adult criminal activity, juvenile delinquent behavior, or parental abuse and/or neglect of children. Nevada Revised Statute (NRS) 176.0613 defines a Specialty Court program as, “A program established by a court to facilitate testing, treatment, and oversight of certain persons over whom the court has jurisdiction and who the court has determined suffers from a mental illness or abuses alcohol or drugs.”

## Behavioral Health Advocacy and Support Services

### **National Alliance on Mental Illness (NAMI) Western Nevada... ..Call (775) 440-1626**

3094 Research Way, Suite #61. Carson City, NV 89706

Website: [namiwesternnevada.org](http://namiwesternnevada.org)

- Advocates for a life of quality and dignity by providing free education, resources, and confidential emotional support to families and those affected by mental illness. Works to end discrimination and stigma for all the persons affected by these illnesses through broader education and collaboration with the entire community.

#### **□ Programs offered:**

##### **NAMI Family-to-Family**

NAMI Family-to-Family is a free 12 session course for family members and partners of individuals with serious mental illnesses taught by trained NAMI family members and caregivers of individuals living with mental illness.

##### **NAMI Family Support Group**

NAMI Family Support Group is a free and confidential bi-monthly meeting of family members. This group focuses on developing community, shared wisdom, and best support practices for loved ones living with mental illness. These meetings are facilitated by trained NAMI volunteers who are family members.

##### **NAMI Basics**

NAMI Basics is a free 6 session education program developed specifically for parents and other caregivers of children and adolescents who have either been diagnosed with a serious mental illness or are experiencing symptoms.

##### **NAMI In Our Own Voice**

NAMI In Our Own Voice is a free, unique public education presentation that offers insight into the hope and recovery possible for people living with mental illness.

##### **NAMI Peer-to-Peer**

NAMI Peer-to-Peer is a free, 10 session, peer-led, recovery education course, open to any person with a serious mental illness. Peer to Peer emphasizes recovery from mental illness as a feasible, supportable goal and challenges the stigma often wrongly associated with mental illness.

##### **NAMI Homefront**

NAMI Homefront is a free, 6 session education program for families, caregivers and friends of military service members and veterans with mental health conditions.

# KNOW CRISIS

## PROGRAM MISSION

Mobile Crisis Response Team  
strives to help Nevada children  
and adolescents live happily  
and safely in their homes  
and communities.

### DIVISION OF CHILD AND FAMILY SERVICES

6171 W. Charleston Blvd, Bldg 10  
Las Vegas, NV 89146

4600 Kietzke Lane Bldg D.  
Reno, NV 89502

### DIVISION OF PUBLIC AND BEHAVIORAL HEALTH

Rural Administrative Office  
1825 Pinion Rd. Suite A  
Elko, NV 89801

## THE COMMUNITY WHO WE SERVE

The Mobile Crisis Response Team  
provides crisis intervention and  
stabilization services for youth  
and families of youth under the  
age of 18 who are exhibiting  
behavioral / mental health  
concerns in which the behavior  
requires urgent intervention.

**KNOWCRISIS.COM**

# CHILDREN'S MOBILE CRISIS RESPONSE TEAM

For Nevada's Children and Families

**Sometimes what children  
don't say speaks louder  
than what they do.**

**KNOWCRISIS.COM**

# GOALS

- Support and maintain youth in their home and community environment.
- Promote and support safe behavior in youth in their homes and community
- Reduce admissions to Emergency Departments due to a behavioral health crisis.
- Facilitate short term in-patient psychiatric hospitalization when needed.
- Assist youth and families in accessing and linking to on-going support and services.

## MOBILE CRISIS RESPONSE TEAMS

The team supports youth and families in behavioral and mental health crisis situations and helps to find community services for youth and their families. The Mobile Crisis Response Team(MCRT) is designed to reduce emergency department visits due to a psychiatric crisis and to reduce psychiatric hospitalizations when appropriate by providing immediate support and crisis interventions, short-term stabilization and case management services. Interventions are provided in the community, home, and/or through phoneconsultation.

## TELEPHONE TRIAGE

Crisis staff are available to provide support over the phone to assist in resolving or preventing a crisis situation. After an intervention screening, a referral will either be made to a community resource or to the Mobile Crisis Response Team clinician.

MCRT triage operates 24 hours a day, 7 days a week, 365 days a year.

## CRISIS RESPONSE

If it is determined that further care is needed, a team will respond to the youth and family in crisis. The team will work to de-escalate the crisis and provide interventions to stabilize the crisis. Depending on where the family is located and the time of day, a team may respond in-person or via telehealth.

## CRISIS STABILIZATION

Crisis stabilization is a short-term, mental health intervention provided in or outside of the youth and family home. It is designed to assess, manage, monitor, stabilize and support the youth's wellbeing. Teams develop individualized crisis and/or safety plan with the family to help support the youth.

## AFTER CARE

The Mobile Crisis Response Team is available to follow up with youth and their families to ensure that there is a smooth transition to needed supports and services in the community.

# KNOW CRISIS

## La Misión del Programa

El Equipo Móvil de Respuesta Infantil se esfuerza en ayudar a los niños y adolescentes de Nevada a vivir felices y seguros en su hogar y comunidades

## LA COMUNIDAD A LA QUE SERVIMOS

El Equipo Móvil de Respuesta a Crisis proporciona intervenciones de crisis y servicios de estabilización para jóvenes y familias de jóvenes, que demuestren problemas de salud mental o conductual en los cuales el comportamiento requiere una intervención urgente.

### DIVISIÓN DE SERVICIOS PARA LA NIÑEZ Y FAMILIAS

# CHILDREN'S MOBILE CRISIS RESPONSE TEAM

Para los niños y familias de Nevada

**A veces lo que los niños  
no dicen habla más fuerte  
que lo que hacen.**

**KNOWCRISIS.COM**

# Objetivos

- Apoyar y mantener a los jóvenes en su hogar y entornocomunitario.
- Promover y apoyar comportamientos seguros en los jóvenes en sus hogares y comunidad.
- Reducir las admisiones a los departamentos de emergencia debido a una crisis de salud conductual.
- Asistir a los jóvenes y familias a acceder y conectarse con apoyo y servicios continuos.
- Re-dirigir a los niños y jóvenes de las intervenciones de alto nivel (como la hospitalización de pacientes internos) si existe una alternativa de atención segura y eficaz que sea de nivel menor.

## EQUIPO MÓVIL DE RESPUESTA A CRISIS

El equipo apoya a los jóvenes y familias en situaciones de crisis de comportamiento y salud mental y ayuda a encontrar servicios comunitarios para los jóvenes y sus familias. El Equipo Móvil de Respuesta a Crisis (MCRT, por sus siglas en inglés) está diseñado para reducir las visitas al departamento de emergencias debido a una crisis psiquiátrica y para reducir las hospitalizaciones psiquiátricas cuando corresponda brindando apoyo inmediato e intervenciones de crisis, estabilización a corto plazo y servicios de administración de casos. Las intervenciones se brindan en la comunidad, el hogar y/o mediante consultas telefónicas.

## TRIAJE TELEFÓNICO

El personal de crisis está disponible para brindar apoyo telefónico y ayudar a resolver o prevenir una situación de crisis. Después de una evaluación de intervención, se hará una referencia a un recurso comunitario o al médico del Equipo Móvil de Respuesta a Crisis.

El triaje de MCRT opera las 24 horas del día, los 7 días de la semana, los 365 días del año.

## RESPUESTA A LA CRISIS

Un equipo responderá a los jóvenes y familias en crisis. El equipo trabajará para reducir la escala de la crisis y brindará intervenciones para estabilizar la crisis. Dependiendo de dónde se encuentre la familia y la hora del día, un equipo puede responder en persona o a través de Telehealth.

## ESTABILIZACIÓN DE CRISIS

La estabilización de crisis es una intervención de salud mental a corto plazo proporcionada dentro o fuera del hogar del joven y la familia. Está diseñado para evaluar, administrar, monitorear, estabilizar y apoyar el bienestar de los jóvenes. Los equipos desarrollan un plan individualizado de crisis y/o seguridad con la familia para ayudar a apoyar al joven.

## CUIDADO POSTERIOR

El Equipo móvil de respuesta a crisis está disponible para hacer un seguimiento de los jóvenes y sus familias para garantizar que haya una transición sin problemas a los apoyos y servicios necesarios en la comunidad.
