Behavioral Health Initiative Acronyms and Definitions

Behavioral Health Task Force (BHTF)

- County based policy meetings involving stakeholders that have a vested interest in behavioral health and their communities. Task forces are a place to gather, identify problems, and set goals and priorities for the communities to tackle problems both large and small. Task forces are effective in bringing all stakeholders together as they enable different professions to understand behavioral health impacts and challenges from different perspectives.

Certified Community Behavioral Health Clinics (CCBHC)

- Outpatient behavioral health clinics that provide integrated mental health and substance use treatment, primary care assessment, and medication management as needed. CCBHC's serve the 'whole person' by offering person-centered and family-centered care. Populations that CCBHCs provide services to include:
 - Adults with serious mental illness (**SMI**)
 - Children with serious emotional disturbance (**SED**)
 - Individuals with severe substance use disorders (**SUD**)
 - Individuals with mild or moderate mental illness and substance abuse disorders
- Services provided:
 - Community-based mental health and substance use treatment services
 - Combined behavioral health and physical health care with no wrong door entry
 - Evidenced based practices
 - Improved access to high-quality care
 - Care coordination and case management to address all needs of the individual

Crisis Intervention Team (CIT)

- The Crisis Intervention Team (CIT) model is a police-led, collaborative response for behavioral health crises that involves training patrol officers to recognize and de-escalate situations involving individuals experiencing a behavioral health crisis and to refer those individuals to appropriate services, as opposed to conducting an arrest, when possible. The goals of CIT programs are to increase the safety of police interactions with individuals experiencing a crisis, to improve access to behavioral health services for individuals in crisis, and to reduce reliance on the criminal justice system in addressing behavioral health-related challenges. These programs have most traditionally been used to address individuals experiencing mental health or substance use-related crises. Less research has examined the utility of these programs for improving police interactions with individuals with intellectual and/or developmental disabilities.

Forensic Assessment Service Triage Team (FASTT)

- FASTT teams may include social services, mental health, and substance use treatment agencies who conduct community in-reach into county jails to provide inmates with screening, assessment, treatment, and other services during incarceration and upon re-entry into the community to reduce risk of rearrest.

Health and Human Services

- The services offered are unique to each county. Counties with robust social service agencies have a wide variety of services for vulnerable populations while other social service agencies are limited to offering emergency rent assistance, housing vouchers and transportation assistance.

Mobile Crises Response Team (MCRT) (Youth)

- The MCRT responds to youth and families in crises, by phone or in person, working to connect them to treatment and prevent hospitalizations. Mental health clinicians are available to assess, intervene, and stabilize crises, and connect the family to continuing care. MCRT provides a statewide hotline to receive referrals and provide screening. If additional intervention is necessary, a response team provides limited-time outreach to the youth and family to resolve the crisis. MCRT also offers short-term assistance and case management services.

Mobile Outreach Safety Team (MOST)

- A team composed of a mental health clinician and/ or case manager, and a law enforcement deputy; may also include an emergency services paramedic and/ or social services case manager. The team responds to law enforcement calls and other community referrals that involve behavioral health crisis. Depending on the county, MOST teams may respond to psychiatric emergencies, provide community outreach, and/or provide maintenance check-ups on previous contacts. MOST's purpose is to reduce the risk of arrest and hospitalization for individuals experiencing behavioral health issues, thereby increasing the safety of the public.

Multidisciplinary Team (MDT)

- A regularly scheduled community provider meeting focused on development of service and crisis stabilization plans for individuals who are in chronic crisis or are overutilizing emergency services. Teams may consist of any combination of law enforcement, emergency medical services, housing, hospitals, social services, and behavioral health treatment providers. For certain populations, Adult Protective Services or the Department of Child and Family Services may be involved.

Rural Children’s Mental Health Consortium (RCMHC)

- The functions of the Consortia are to assess the current and behavioral health services for youth in each jurisdiction and develop a plan that will identify gaps and areas in need of improvement. The RCMHC is comprised of committed professionals, agency personnel, community representatives, parents, foster parents, youth, community business representatives, representatives from the Department of Education and advocates.

Southern Regional Behavioral Health Policy Board (SRBHPB)

Website: <https://nvbh.org/southern-behavioral-health-region/>

- Diverse group of stakeholders in the southern region commissioned by the Nevada Legislature in 2017 (AB366) to identify needs, priorities, strategies, and recommendations for behavioral health issues in the region. Currently meeting monthly.

State of Nevada-Division of Public and Behavioral Health Rural Clinics (DPBH)

Website: <https://dpbh.nv.gov/>

- Public outpatient behavioral health services are provided by the Nevada Division of Public and Behavioral Health. Offices are located in most counties (with the exception of Eureka and Storey Counties).

Western Regional Specialty Courts (WRSC)

Website: <https://www.reno.gov/government/municipal-court/specialty-courts-and-programs>

- Specialty Courts are problem-solving courts that help break the cycle of drug and/or alcohol addiction that can influence adult criminal activity, juvenile delinquent behavior, or parental abuse and/or neglect of children. Nevada Revised Statute (NRS) 176.0613 defines a Specialty Court program as, “A program established by a court to facilitate testing, treatment, and oversight of certain persons over whom the court has jurisdiction and who the court has determined suffers from a mental illness or abuses alcohol or drugs.”

Behavioral Health Advocacy and Support Services

National Alliance on Mental Illness-Western Nevada

(NAMI).....Call (775) 440-1626

3094 Research Way, Suite #61. Carson City, NV 89706

Website: namiwesternnevada.org

- Advocates for a life of quality and dignity by providing free education, resources, and confidential emotional support to families and those affected by mental illness. Works to end discrimination and stigma for all the persons affected by these illnesses through broader education and collaboration with the entire community.

- **Programs offered:**

NAMI Family-to-Family

NAMI Family-to-Family is a free 12 session course for family members and partners of individuals with serious mental illnesses taught by trained NAMI family members and caregivers of individuals living with mental illness.

NAMI Family Support Group

NAMI Family Support Group is a free and confidential bi-monthly meeting of family members. This group focuses on developing community, shared wisdom, and best support practices for loved ones living with mental illness. These meetings are facilitated by trained NAMI volunteers who are family members.

NAMI Basics

NAMI Basics is a free 6 session education program developed specifically for parents and other caregivers of children and adolescents who have either been diagnosed with a serious mental illness or are experiencing symptoms.

NAMI In Our Own Voice

NAMI In Our Own Voice is a free, unique public education presentation that offers insight into the hope and recovery possible for people living with mental illness.

NAMI Peer-to-Peer

NAMI Peer-to-Peer is a free, 10 session, peer-led, recovery education course, open to any person with a serious mental illness. Peer to Peer emphasizes recovery from mental illness as a feasible, supportable goal and challenges the stigma often wrongly associated with mental illness.

NAMI Homefront

NAMI Homefront is a free, 6 session education program for families, caregivers and friends of military service members and veterans with mental health conditions.

Commodities

This resource in Esmeralda County is a joint effort with 3 Square of Las Vegas. The resource includes two deliveries of food including frozen and fresh: fruits, vegetables, meats, canned & boxed goods. This food is distributed to volunteers of the other unincorporated towns (Gold Point, Silver Peak, and Fish Lake Valley, and then the food is delivered to local families. The distribution happens the first Wednesday and third Monday (barring holidays). Anyone who meets the income requirements may contact the Commissioner's Office for an application and times for distribution in their area.

Pickup Locations

- **Goldfield:** Commodities Barn on Euclid across from the Fire Barn (Noon-1:00 pm)
- **Fish Lake Valley:** Community Center (2:15 to 3:15 pm)
- **Silver Peak:** Library (11:00 to 12:00 pm)
- **Gold Point:** Delivers to the 6 residents there as soon as she gets back to Gold Point (10-10:30 am)

Children's Mobile Crisis Response Team

Community and hospital clinical assessment, intervention, and discharge support for youth and families experiencing crisis.

Hotline Telephone
702-486-7865
Available 24/7

Mental health response and stabilization for youth and their families seeking immediate support for behavioral health concerns.

WHAT WE DO:

Mobile Crisis Response Team (MCRT) supports youth and families who want help for any mental health/behavioral health situation or crisis with a child or adolescent in any community in Nevada. Crisis is different and unique for every youth and family, and may include concerns such as suicidal thoughts, self-harming behaviors, anxiety, depressed mood, anger and aggression, bullying, drug and alcohol, sexual identity, or any other presenting concerns for which a youth or family wants a crisis assessment, supports and interventions.

MCRT uses a team approach of a clinician and case manager who will complete an assessment, provide support and crisis interventions, short-term stabilization and case management services. Responses and stabilization services are provided in the families location of choice when possible and may be in community settings, home and/or through phone/video telehealth. In rural Nevada, services are provided via phone/video through telehealth.

Children's Mobile Crisis Response Team

*Community and hospital clinical assessment, intervention,
and discharge support for youth and families experiencing crisis.*

Línea directa 702-486-7865
Disponibilidad 24/7

La respuesta y estabilización de salud mental para jóvenes y sus familiares quienes buscan una ayuda inmediata en las preocupaciones de la salud conductual.

LO QUE HACEMOS:

Equipo móvil de respuesta a crisis para niños (MCRT por sus siglas en inglés) le ayuda a jóvenes y familias que necesitan ayuda para cualquier situación de salud mental o de comportamiento o en crisis con su hijo/a o adolescente en cualquier comunidad en Nevada. La crisis se presenta diferentemente y únicamente en cada joven y familia, y podría incluir preocupaciones, tales como pensamientos suicidas, comportamiento con daño autoinfligido, ansiedad, sentimiento de depresión, ira y agresión, acoso, consumo de drogas y alcohol, identidad sexual, o cualquier otra preocupación que se le presente, lo cual el/la joven o familiar quiere que se haga una evaluación de crisis, apoyo e intervención.

El MCRT usa una metodología en equipo formada por un trabajador social y un profesional de la salud quienes desarrollarán una evaluación, darán apoyo e intervenciones de crisis, estabilización a corto plazo y servicios de administración del caso. Los servicios de atención y de estabilización se darán en la ubicación que escoja la familia, lo cual podría ser en instalaciones comunitarias, en la casa, y/o por telemedicina sea teléfono o video. En la zona rural de Nevada, los servicios se darán por teléfono.
